

## Order codes SM3300 series

This document contains all possible option combinations of each unit in the power supply series. Each option has a P number descriptor for example the power sink option is P230. Before ordering, it is possible to specify a combination of options to be factory built-in to your power supply. For example, the combination: SM15-400 P001,069.

All allowed combinations are listed in the tables in this document. Each table begins with an option combination in the form of P-numbers. Next to an option combination, the order code is specified (Z-code). Please specify the Z-code when ordering a power supply with options.

## Contents

Order codes SM3300 series.....	1
SM18-220.....	2
SM66-AR-110.....	2
SM100-AR-75.....	2
SM330-AR-22.....	2
SM660-AR-11.....	2
Pluggable interface modules.....	3

### SM18-220

Option combination	Order code	Description
SM18-220	SM18-220	
SM18-220 P300	SM18-220 Z001	Option P300 High-speed programming
SM18-220 P300,306	SM18-220 Z003	Option P300 High-speed programming, Option P306 Power Sink
SM18-220 P306	SM18-220 Z002	Option P306 Power Sink

### SM66-AR-110

Option combination	Order code	Description
SM66-AR-110	SM66-AR-110	
SM66-AR-110 P302	SM66-AR-110 Z001	Option P302 High-speed programming
SM66-AR-110 P302,308	SM66-AR-110 Z003	Option P302 High-speed programming, Option P308 Power Sink
SM66-AR-110 P302,308,322	SM66-AR-110 Z006	Option P302 High-speed programming, Option P308 Power Sink, Option P322 Double Voltage Limit. Maximum 58V.
SM66-AR-110 P308	SM66-AR-110 Z002	Option P308 Power Sink
SM66-AR-110 P308,322	SM66-AR-110 Z005	Option P308 Power Sink, Option P322 Double Voltage Limit. Maximum 58V.
SM66-AR-110 P322	SM66-AR-110 Z004	Option P322 Double Voltage Limit. Maximum 58V.

### SM100-AR-75

Option combination	Order code	Description
SM100-AR-75	SM100-AR-75	
SM100-AR-75 P303	SM100-AR-75 Z001	Option P303 High-speed programming
SM100-AR-75 P303,309	SM100-AR-75 Z003	Option P303 High-speed programming, Option P309 Power Sink
SM100-AR-75 P309	SM100-AR-75 Z002	Option P309 Power Sink

### SM330-AR-22

Option combination	Order code	Description
SM330-AR-22	SM330-AR-22	
SM330-AR-22 P304	SM330-AR-22 Z001	Option P304 High-speed programming
SM330-AR-22 P304,310	SM330-AR-22 Z003	Option P304 High-speed programming, Option P310 Power Sink
SM330-AR-22 P310	SM330-AR-22 Z002	Option P310 Power Sink

### SM660-AR-11

Option combination	Order code	Description
SM660-AR-11	SM660-AR-11	

SM660-AR-11 P305	SM660-AR-11 Z001	Option P305 High-speed programming
SM660-AR-11 P305,311	SM660-AR-11 Z003	Option P305 High-speed programming, Option P311 Power Sink
SM660-AR-11 P311	SM660-AR-11 Z002	Option P311 Power Sink

### Pluggable interface modules

Name	Order code	Description
Interface Analog	INT MOD ANA	Analog programming interface
Interface Isolated Contacts	INT MOD CON	Isolated relay and interlock interface
Interface Digital I / O	INT MOD DIG	Digital I/O interface
Interface Master / Slave	INT MOD M/S	Master/Slave interface for SM3300
Interface Serial	INT MOD SER	Serial port programming interface
Interface Simulator	INT MOD SIM	Simulation software interface for SM3300
